Exchange Program, Psychology & Communication (3.83/4.0) Aug. 2021 - May. 2022

PROFESSIONAL EXPERIENCE

Fashom **Miami, FL**

Data Scientist (Practicum Project) Sept. 2022 – Jun. 2023

An AI-based B2B e-commerce SaaS startup offering API solutions regarding personalized recommendations.

- Enhanced the clothing image classification algorithm accuracy by 40% by utilizing data augmentation, GPU, and transfer learning (ResNetV2) in TensorFlow on Google Colab.
- Performed ETL and Visualization on 63k+ clothing inventory data from AWS Workspace, using SQL and Python (including pandas, numpy, matplotlib, seaborn, and requests)
- Built a personalized recommendation algorithm, based on Market Basket Analysis and Apriori algorithm using Python, contributing to successfully completing the API solution.
- Leveraged Tableau to effectively communicate with technical and non-technical stakeholders.

PricewaterhouseCoopers (PwC) **Shenzhen, CHN**

Business Analyst Intern Sept. 2021 – Dec. 2021

One of the Big 4 firms in management consulting.

- Revealed valuable patterns and insights by leveraging MySQL, Python, and Tableau to extract, process, and visualize 210K+ daily user engagement data from the client's website.
- Increased conversion prediction accuracy to 76% by applying Logistic Regression in Python to user engagement data, using significant features identified by Lasso Regression and business acumen.
- Achieved an 84% accuracy rate in forecasting weekly conversions by developing an ARIMA model in R

Founder Securities **Shenzhen, CHN**

Industry Analyst Assistant (Intern) Apr. 2021 – Jul. 2021

A well-known industry consulting company in China.

- Revealed trends and seasonal patterns by performing EDA on 327K+ monthly sales records in the FMCG industry using Python and MySQL.
- Identified opportunities and threats for the FMCG industry by conducting a SWOT analysis.

Fanhua Finance Insurance **Chengdu, CHN**

Financial Analyst Intern Jan. 2021 – Mar. 2021

A well-known insurance company in China.

- Optimized financial plans using Excel optimization solver to allocate the budget across each marketing channel, resulting in a 10% increase in total ROI on the simulated dataset.
